Summary

Passionate student in the field of programming that's currently studying at 42 Quebec. I am currently looking for an internship in software development to apply the problem solving and teamwork skills I have acquired throughout the formation. I am proficient at using the C programming language with a solid base in C++, Javascript/Typescript, C#, Docker and Git. I am a curious and driven person and am ready to work with and discover any technology you employ. I am looking forward to gain real world work experience and to collaborate with other skilled individuals!
